RYE WHISKEY  
AGED 4 YEARS

LIMITED RELEASE

INTRODUCING AMERICAN  
BULL & BEAR LIMITED RELEASE  
STRAIGHT RYE WHISKEY  
AGED 4-YEARS.

Straight Rye whiskey distilled in Indiana and produced at the Good Spirits Distillery in Kansas. It is characterized by a high rye content for an American Rye through our 4-year aging process and has a unique and compelling branding with custom-made embossed glassware. Barrel aged in Indiana for a minimum of 48- months, American Bull & Bear is exceptionally well balanced without the burn associated with most rye whiskeys. Hints of char oak and tobacco gives way to slightly sweet fresh corn at mid-pallet and finished with toasted sweet black pepper corn.

BARREL  
AGED

Whether you're looking for a reliable straight rye whiskey to order at the bar or you are looking to order a whiskey for your own home bar, American Bull & Bear is the way to go. It's a classic American Straight Rye Whiskey, barrel aged for 4-years, and goes down smooth. This makes is perfect for sipping solo or in a premium cocktail like a Manhattan. But best of all, the price and availability can't be beaten for the complexity of the spirit's flavor.
